(b) The Village Council, after Written Notice to the affected Property owners, shall have the power to assess by resolution the cost of the grading, paving, or improvement against all Property abutting on the street, road, lane, sidewalk, or improvement and specially benefitting from the work, using the front foot method of apportionment or some other equitable basis that the Village Council may determine; provided that the improvements are petitioned for by the Property owners of one–half of the frontage abutting on the street, road, lane, sidewalk, or other improvement. The cost assessed may include administrative and other associated costs, including any interest charges incurred by the Village in connection with the financing of the work. Before
any contract for work shall be entered into, or any obligation incurred, Written Notice shall be given to the Property owners and others of record interested in the abutting Property and an opportunity to be heard shall be given. The hearing shall be before the Village Council, who shall decide the matters properly before it. Each installment shall be collected as County taxes are collected, and shall be subject to interest from the first of the following September until paid at the rate specified for taxes in the Maryland Code. Each installment of the assessment shall become a lien against the abutting Property, and any installment not paid by the first day of January following its becoming due, shall be subject to the same penalties and shall be collected in the same manner as provided for the collection of unpaid County taxes. All money received by the County pursuant to this section shall be paid over to the Village Treasurer.
