WHO IS EA?

EA Engineering, Science, and Technology, Inc., PBC (EA) is a 100% ESOP-owned public benefit corporation that provides environmental, compliance, natural resources, and infrastructure engineering and management solutions to a wide range of government and industrial clients. In business since 1973, EA has earned an outstanding reputation for technical expertise, responsive service, and judicious use of client resources.

OUR KEY SERVICES:

- Project Management
- Application Design and Development
- Data Collection, Analysis and Management
- Mobile Data Collection
- Metrics Monitoring and Reporting
- Software Selection and Implementation
- Automation
- EHSS Compliance Monitoring

WHAT WE OFFER:

Customer-Driven Software Selection Process. Our experts and resources are customer focused to deliver value throughout your selection process. We support business case development from all stakeholders; identify and gain corporate sponsorship; gather and document key business requirements; and help identify best of class EHS&S software solutions to match specific business needs that will function as cost-effective partnerships.

Expert Implementation Resources. Our experienced resources:

- Support visioning for EHS&S management systems and business cases
- Gather and document business and functional requirements
- Design and develop enhanced features and software products
- Identify and provide robust metrics for monitoring, reporting, analytics, and system integration
- Execute system data migrations ensuring high quality review throughout the process
- Develop and implement training programs for all user role levels
- Provide continued application support to users and enhancement configuration
- Encourages agile/scrum implementations to provide product releases in smaller increments for quicker software access and end user value.

Regulatory Knowledge and Technical Expertise. EA's experience includes contracts with federal, state and municipal agencies as well as commercial clients providing nationwide manufacturing, energy, transportation, and construction services. Our experts have successfully provided these clients with a variety of compliance services: ISO 14001; Asset Management; Permit Management; Air Quality Management and Emissions Reporting; EPCRA Tier II and TRI Reporting; Waste Management; Auditing and Inspections; Stormwater and Spill Prevention Compliance; Industrial Hygiene; and Clean Water Act and Safe Drinking Water Act guidance and regulatory support including preparation of Consumer Confidence Reports.

SAFETY AND HEALTH

EA considers health and safety to be of the highest priority. Our commitment to safety has been consistently recognized by the National Safety Council, which honored the company with its Industry Leader Award in 2014, and its Occupational Excellence Achievement Award in 2019, 2018, 2016, 2014, and 2012.

Our Experience Modification Rate and OSHA Recordable Incident Rate are well below industry average, and our Health and Safety Program approved by leading 3rd-party contractor/supplier management networks.

SUSTAINABILITY COMMITMENT

As an environmental consulting firm and a public benefit corporation, EA is committed to constantly advancing new ways and methods for putting sustainability into practice and measuring our achievements. On behalf of our clients, we focus on minimizing resource consumption while maximizing value creation during the execution of our projects.

In 2019, EA's Corporate Social Responsibility Program was awarded EcoVadis' Sustainability Leadership Award for Best Performer: North America in the category of Small to Medium Enterprise.
