

# PRODUCT OFFERINGS

Terex Utilities is a leading global manufacturer of aerial devices, digger derricks and auger drills for the electric utility industry and offers service and parts support nationwide. Whether you're building, supporting or maintaining the electric grid, Terex has you covered.

## TEREX® HI-RANGER™ AERIAL DEVICES

Our Terex® Hi-Ranger™ aerial devices are available to you in a multitude of configurations, with applications of overcenter, non-overcenter and telescopic. We offer insulated aerial devices with various working heights, mounted on a variety of chassis platforms. Our Hi-Ranger aerials are known for being simple, productive and reliable in order to complete your most challenging jobs. Our history of quality and innovation has added improved features including, boom speed, smooth boom operation and lower travel height, as experienced in our Optima Series for distribution work. Our TL Transmission aerial devices were designed for increased uptime and reliability with commonality among parts. These units are typically mounted on a lower cost, lighter weight chassis compared to traditional transmission aerials.

Series	Material Handler or Personnel	Service	Distribution	Transmission	APPLICATION
		30-49 ft	50-69 ft	70-125 ft	
<b>AERIALS</b>					
L13i	Personnel	36.5			Articulated Telescopic
LT	Personnel	40			
LTM	MH	40			
TL	MH	37, 41, 45	50, 55, 60	80*, 100*, 80/112*	
TL17i	MH		51.2		
SC	Personnel	42, 45			Overcenter
SCM	MH		55		
XT-PRO	Personnel		56, 60, 60/70		
HR	MH	37, 40, 46			
Optima HR	MH		50, 55		
Optima HRX	MH		50, 55, 60		Non-Overcenter
TC	MH		65		
Optima TC	MH		50, 55		
Optima TCX	MH		50, 55, 60		
Optima RMX	MH			75, 75/88, 75/90, 75/100	
TM	MH			85*, 100*, 125*	

\*Indicates working height. All other numbers are bottom of platform height.

# PRODUCT OFFERINGS

## TEREX DIGGER DERRICK

The Terex Commander distribution digger derrick series is known for its overall productivity, reliable design, and work zone capacity. Available with a turret mount or boom tip winch, Terex Commander digger derricks get the job done by allowing you to dig, lift and set the pole without having to move the truck. Optional X-Boost™ provides extra capacity at higher boom angles for jobs such as setting pad mount transformers.

The Terex General transmission digger derrick is known as the original derrick to get the work done under the toughest working conditions. Both truck and track mounted generals for 65, 80 and 95 ft have been core products for building and supporting the transmission grid. As the first company to build a hydraulic digger derrick, we're continually working on ways to help our customers operate more efficiently.

Series	Distribution	Transmission
C4000	42, 45, 47, 50	
C5000	45, 48, 50, 52, 55	
C6000		54, 60
GENERAL		65, 80, 95

All numbers indicate sheave height in feet.

## TEREX AUGER DRILL

Compact and powerful Terex auger drills offer a wide range of drill speeds and the highest drill torque per class - all with quick setup time to get your crew to work fast and remain productive throughout the day. Our 330 and 650 models feature product enhancements of radio remote controls (a first in auger drill operation), and auger drill control system that improves productivity and increases operator comfort. These enhancements make it easier to drill along with remote diagnostic and support capability.

In addition, Terex offers a vast line of auger tools for hard rock, dirt and high-production drilling, as well as coring systems, pilots, bits, hubs, boring heads and shank plates.

Series	Drill Depth	Kelly Bar
330 HDR	12' & 20'	3"
650 HDR	30' & 43'	3.5"
