

## NEXT LEVEL CARDIAC REHABILITATION

“The overall plan of care at Collingswood has been excellent. I came in with a history of heart disease and a stroke. I wasn’t even able to move when I arrived. I can walk down the hall now with just a little bit of help! I have made friends here and I appreciate the many activities offered. I must mention Betty, James, Joshua, Jackie, Francine and Comfort. They are all very caring and I can tell that they love what they do.

**I feel so confident in the care that I would certainly recommend Collingswood to others. ”**
