

About EA

IMPROVING THE QUALITY OF THE
ENVIRONMENT IN WHICH WE LIVE,
ONE PROJECT AT A TIME®

EA Engineering, Science, and Technology, Inc., PBC (EA) is fully focused on developing highly integrated, interdisciplinary environmental solutions for our global clients.

A client-centered firm, we are consistently recognized as a Top 30 All-Environmental Firm, Top 200 Environmental Firm, and Top 500 Design Firm by *Engineering News-Record*.

EA provides comprehensive environmental services that foster environmental sustainability and stewardship, secure regulatory compliance, promote operational efficiencies, and advance health and safety performance.

Propelled by our development and implementation of innovative methodologies and technologies, EA is on the forefront of emerging environmental issues.

Integrating engineering, science, and technology, we incorporate empirical and analytical techniques, develop unique performance standards, and apply new technologies to achieve superior results and exceed our clients' expectations.

Having performed more than \$2 billion in services, EA continues to expand our service offerings to meet today's challenges.

With our wide breadth of capabilities, EA provides technical expertise that begins with project conceptualization through final construction and continues with long-term operations and maintenance.

EA is a 100% employee-owned public benefit corporation.

- **Civil and Environmental Engineering**

Solid Waste, Stormwater, Facility Site Planning, Ecosystem Restoration, Sustainability, Remedial Action, Design-Build

- **Compliance Services**

Sustainability Programs; Renewable Energy Services; Integrated Management Systems; Multi-Media Compliance; Industrial Hygiene; EMS Audits; Air Permitting, Modeling, and Monitoring

- **Ecotoxicology and Biological Laboratories**

Ecotoxicology/Biological Laboratory Studies, Toxicity Reduction/Toxicity Identification Evaluations

- **Environmental Assessment**

Water Quality Assessment and Permitting, Stormwater, Human Health and Ecological Risk Assessments, NEPA and Sediment Evaluations, Dredged Material Management, Community Outreach

- **Munitions Response Services**

MEC/MC Assessments, Geophysical Investigation, MEC/UXO Remediation, Small Arms Range Management, UXO/Explosives Safety

- **Natural Resources**

Ecological Services; Endangered Species; Fisheries Biology; Wildlife, Plant, Forest, and Wetland Assessment; Ecosystem Restoration; Biomonitoring

- **Program/Construction Management**

Construction Management, Construction Inspection, Program Management, Project Controls

- **Site Characterization and Remediation**

Phase I Property Transfers, Site Characterization and Investigation, CERCLA and RCRA-Related Services, Long-Term Monitoring and Operations, Remedial Process Optimization

- **Solid Waste Management**

Landfill Permitting and Design; Monitoring and Modeling for Air and Wastewater, including Landfill Gas and Marine Waters

- **Technology Services**

Application Development, Data Management, GIS/Mapping, System Hosting and Maintenance, Implementation Planning and Needs Analyses

- **Water/Wastewater Engineering**

Water Resources and Source Water, Water Supply Solutions, Wastewater, Solids Handling, Safe Drinking Water Act, Clean Water Act, NPDES Permitting

Overview

About EA

EA is a 100% employee-owned public benefit corporation that provides environmental, compliance, natural resources, and infrastructure engineering and management solutions to a wide range of public and private clients. Headquartered in Hunt Valley, Maryland, EA employs more than 500 professionals through a network of 25 commercial offices across the continental United States, as well as Alaska, Hawaii, and Guam. In business for more than 46 years, EA has earned an outstanding reputation for technical expertise, responsive service, and judicious use of client resources. For more information about EA, visit www.eaest.com.

Office Locations

Every person in our firm is dedicated to the goal of providing superior client service and using our abilities, creativity, and commitment to anticipate our clients' needs. Through the talents and experience of our staff, we have built a reputation for integrity, quality, innovation, and dedication—as shown by the more than 80 percent of our business that comes from existing clients.
