

BLACK HAWK™

PAD-MOUNTED LASER SPEED ENFORCEMENT SYSTEM

optotraffic™
innovative traffic safety solutions 

BlackHawk™ is a compact, portable pad-mounted LiDAR speed enforcement system for multi-lane enforcement locations where system footprint and/or aesthetics are important.

FEATURES:

- ✦ Internal battery & wireless connectivity enables complete portability
- ✦ Small footprint is about the size of a USPS collection box
- ✦ Captures both still & video images of violations

ADVANTAGES:

- ✦ Uni or bi-directional enforcement configuration
- ✦ Optional custom decal and/or color striping
- ✦ IR Illumination - no white light flash to distract drivers

Optotrafic provides the same comprehensive suite of back office support services for all our enforcement systems. These include: citation printing and mailing, call center representatives, systems and software training, lock box payment processing, pay by web, collections, court docket preparation, financial tracking and custom reporting.
