

REDHAWK™

AUTOMATED PHOTO RED LIGHT PHOTO
ENFORCEMENT SYSTEM

optotraffic™
innovative traffic safety solutions 

RedHawk™ features high-resolution video and optional speed detection specifically designed to ensure accurate enforcement and documentation of all types of red light violations. RedHawk™ is available in both fixed pole and portable trailer deployment configurations.

FEATURES:

- ✦ Uses patented, remote traffic signal sensing technology to eliminate need for connection to traffic control box
- ✦ Captures all violation types (straight through, right and left turn on red)
- ✦ Optional LiDAR-based, lane specific vehicle speed detection

ADVANTAGES:

- ✦ Multi-lane enforcement capabilities with video playback for violators
- ✦ Minimal disruption to intersection infrastructure
- ✦ IR illumination - no white light flashes to distract drivers

Optotrafic provides the same comprehensive suite of back office support services for all our enforcement systems. These include: citation printing and mailing, call center representatives, systems and software training, lock box payment processing, pay by web, collections, court docket preparation, financial tracking and custom reporting.
